Abstract	<p>One of the bureaucratic reform implementation is the application of electronic government (e-government). This is for the reason that e-government is considered able to actualize the enhanced performance of bureaucracy. Nevertheless, this application of e-government should also be in unison with the readiness of the officers. The purpose of this research is to analyze factor that affecting The Readiness of Auditor on implementing e-audit as well as to analyze The Readiness of Auditor on implementing e-audit. The respondents were all of auditor of The Audit Board of The Republic of Indonesia Representative Office of Southeast Sulawesi as a census research. To analyze factor that affecting The Readiness of Auditor on implementing e-audit and The Readiness of Auditor on implementing e-audit, a multiple linear regression of questionnaires was used. There were found that Auditor have been ready for e-audit implementation simultaneously Compatibility and Ease of Use affects Auditor Readiness.</p>
