

Supercritical temperature synthesis of fluorine-doped VO₂ (M) nanoparticle with improved thermochromic property

Title	Supercritical temperature synthesis of fluorine-doped VO ₂ (M) nanoparticle with improved thermochromic property
Abstract	
Authors	A Riapanitra, Y Asakura, W Cao, Y Noda, S Yin
Journal Name	Nanotechnology 29 (24), 244005, 2018
Publish Year	2018
Citation	12
