

Glutathione S transferase and catalase gene polymorphisms did not tend to influence the severity of hemoglobin E/ β -thalassemia

Title	Glutathione S transferase and catalase gene polymorphisms did not tend to influence the severity of hemoglobin E/ β -thalassemia
Abstract	
Authors	L Rujito, YR Widodo, G Sakina, Q Santosa, AT Hapsari
Journal Name	Universa Medicina 39 (1), 19-26, 2020
Publish Year	2020
Citation	1
