

The Starting Material Concentration Dependence of Ag₃PO₄ Synthesis for Rhodamine B Photodegradation under Visible Light Irradiation

Title	The Starting Material Concentration Dependence of Ag ₃ PO ₄ Synthesis for Rhodamine B Photodegradation under Visible Light Irradiation
Abstract	
Authors	US Febiyanto
Journal Name	Jurnal Kimia Valensi 6 (1), 1-8, 2020
Publish Year	2020
Citation	1
