

miR-29 suppression of osteonectin in osteoblasts: regulation during differentiation and by canonical Wnt signaling

Title	miR-29 suppression of osteonectin in osteoblasts: regulation during differentiation and by canonical Wnt signaling
Abstract	
Authors	K Kapinas, CB Kessler, AM Delany
Journal Name	Journal of cellular biochemistry 108 (1), 216-224
Publish Year	2009
Citation	275
