

A highly stable oxygen-independent glucose biosensor based on a chitosan-albumin cryogel incorporated with carbon nanotubes and ferrocene

Title	A highly stable oxygen-independent glucose biosensor based on a chitosan-albumin cryogel incorporated with carbon nanotubes and ferrocene
Abstract	
Authors	A Fatoni, A Numnuam, P Kanatharana, W Limbut, C Thammakhet, ...
Journal Name	Sensors and Actuators B: Chemical 185, 725-734, 2013
Publish Year	2013
Citation	105
