
Modeling of non-ductile RC structure under near-fault ground motions: A nonlinear finite element analysis

Title	Modeling of non-ductile RC structure under near-fault ground motions: A nonlinear finite element analysis
Abstract	
Authors	BA Hidayat, HT Hu, FP Hsiao, WC Shen, PW Weng, AL Han, LY Chan, ...
Journal Name	Advances in Structural Engineering 25 (9), 1878-1892, 2022
Publish Year	2022
Citation	3
