

Strong genetic population structure in the boring giant clam, *Tridacna crocea*, across the Indo-Malay Archipelago: implications related to evolutionary processes and connectivity

Title	Strong genetic population structure in the boring giant clam, <i>Tridacna crocea</i> , across the Indo-Malay Archipelago: implications related to evolutionary processes and connectivity
Abstract	
Authors	M Kochzius, A Nuryanto
Journal Name	Molecular Ecology 17 (17), 3775-3787
Publish Year	2008
Citation	81
