

Evaluation of natural compounds as VEGFR-2 inhibitors for breast cancer therapy: insights from molecular docking and drug-likeness analysis

Title	Evaluation of natural compounds as VEGFR-2 inhibitors for breast cancer therapy: insights from molecular docking and drug-likeness analysis
Abstract	
Authors	V Aprilia, MS Fareza, HN Baroroh, NA Choironi
Journal Name	Pharmacy Reports 4 (2), 82-82, 2024
Publish Year	2024
Citation	(not set)
